

TEAMSTERS TAKE ACTION!

IT'S TIME FOR RESPECT; IT'S TIME FOR A NEW CONTRACT.

"We are struggling to make car payments, pay our rent, and this is unfair. Everyone thinks we are making more money, but we're not. We are not asking for much, just a little bit of fairness."

—Alvaro Urquidi, Driver

"It's about fairness. We only want what's right."

—Chris Coffman, Driver

"It seems like Veolia doesn't care about us."

—Susan Broadway, Driver

On Wednesday, we marched with community leaders to present our petition to management. We want a fair deal and a better future for our families and ourselves. We deserve respect, and a new contract. We have been involved in contract negotiations with Veolia since November 2009, and it is time Veolia gave us a fair deal.

STRONGER TOGETHER!

A supermajority of us signed the petition, because many of us are angry with unfair treatment from management. We were joined by Teamsters Local Union 570 and community leaders, and our voice was heard.
